

We, **LAND SERVICES, INC.** (LSI), are a nation-wide consulting firm that is built upon a steadfast vision of taking pride in our nation's lands while providing high-quality services. LSI was established in 1990 with this focus in the forefront.

LSI's founders, Mike and Diane Takac, set their goal to build a company that would stand out by their unwavering commitment to provide unparalleled services to all clientele.

We have the following objectives in place to support us in our aim of complete client satisfaction and continual improvement throughout our organization:

- ✓ To build close relationships with our clients by being conscientious of their goals, needs and expectations.
- ✓ To serve our clients by providing accomplished individuals with diverse experience to complete the requested scope of work with integrity and professionalism.
- ✓ To continually monitor and improve our use of resources through training, planning and good management in our strive to achieve unsurpassed quality, reliability and efficiency.

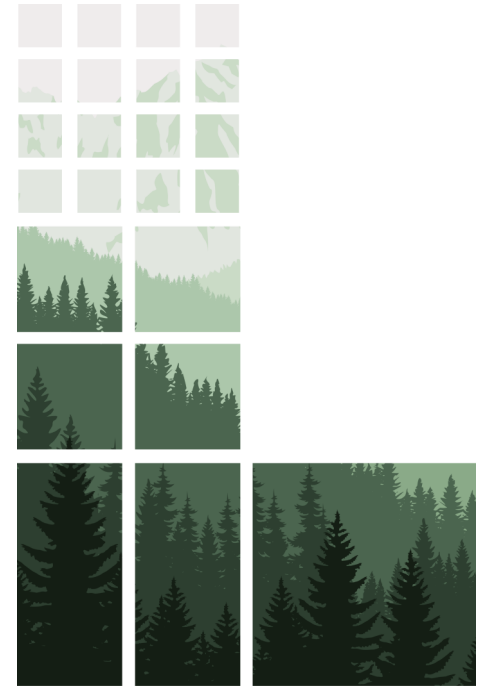

"Conservation
means development
as much as it does protection.
I recognize the right and duty
of this generation
to develop & use the
natural resources of our land;
but I do not recognize
the right to waste them,
or to rob, by wasteful use,
the generations that come after us."

Theodore Roosevelt
Osawatomie, Kansas
August 31, 1910
